Corporate Gift Boxes

2018 Collection

FOODS FREE FROM CHEMICALS, ADDITIVES AND PRESERVATIVES.

Who we are

- Helen's Gourmet Kitchen has been producing preserves, chutneys, relishes, sauces and mustards for over 18 years. During this time, we have sold our products to a select group of clientele, who have regularly purchased them for themselves or for gifts.
- We have always sold the items individually or packaged into gift boxes. We have now also introduced a number of collection packs such as The High Tea Collection, The Mustard Collection and The Breakfast Collection.
- Because we create and print our own labels we are able to design labels to suit any occasion for our customers. We are making a difference in the corporate gift market, due to the uniqueness of our products.

Information

Our products vary, depending on the produce that we source and whilst we may offer certain products such as our Rhubarb and Apple conserve, we are reliant on local producers for the Rhubarb during the Winter/ Spring season, and as such this product may not be available at all times.

Gift boxes will be delivered to your business in the last week of November or the first week of December but may be delivered to your clients for an additional postage charge depending on the weight and where the products will be sent.

If you wish to have your products tailored to your business, we charge an additional \$10.00 per box regardless of the size. Please send us a JPEG of your requirements.
